If you see it in your mind, you know its colour and shape – very good, it will make the work easier and the whole creation process will last much shorter. However if you have no idea at all, it's even better, because you will have a bigger choice. After sending 3-5 of my proposals, we choose one logo for further processing. When you will consider a project as finished, you send me an e-mail informing that you finally approve the project. It is then that I send the files.
